# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

# INTRODUCTION

---

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1949 edition of the High Point City Directory, which also includes Fairmont Park.

Confidence in the growth of High Point's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting High Point to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the High Point Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Four Major Departments

The four major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of High Point and Fairmont Park, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of High Point and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like High Point, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

## Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of High Point and vicinity.

## The High Point Directory Library

Through the courtesy of the publishers of the High Point City Directory, a Directory Library is maintained in the offices of the High Point

Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

## HIGH POINT TODAY

### Origin of Name

High Point derived its name from a statement made by Captain Gregg, chief engineer of the surveyors of the North Carolina Railroad, from Goldsboro to Charlotte (now leased by the Southern Railway), in which he said, "This is the highest point along the whole survey, so we will mark it High Point."

### Industry

High Point occupies the unique position of being the Southern center of two major industries—furniture and hosiery.

The first furniture factory was established in 1888—today there are 84 furniture factories located here manufacturing a complete line of wooden household furniture including office desks and other equipment.

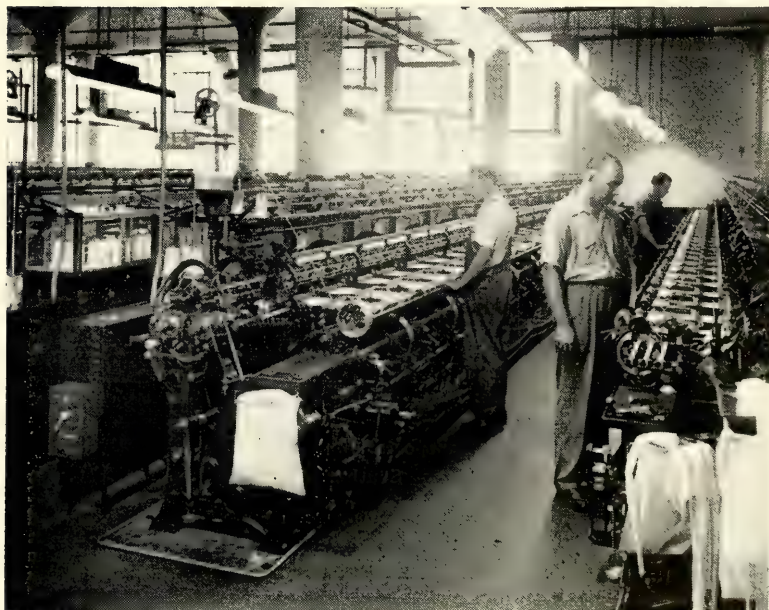

Located here are three furniture exhibition buildings for the exhibition of furniture, rugs, floor coverings and other household furnishings to the dealer—the fourteen-story Southern Furniture Exposition Building, the Tomlinson Exhibition and the Broad Street Furniture and Rug Mart—with combined floor space of 350,000 square feet. Two hundred eighty-three manufacturers of household furnishings exhibit their products in this—The Southern Furniture and Rug Market.

The daily capacity of the 30 hosiery mills of High Point exceeds 50,000 dozen pairs of hose. The manufacture of hosiery ranges from infants' hose to full-fashioned hose, the volume in men's half hose being predominant. First hosiery mill established in 1905.

There is a wide diversity of manufacturing in High Point—in addition to 84 furniture factories and 30 hosiery mills, there are 167 other diversified manufacturing plants. Among these are plants manufacturing: Overalls, work shirts, men's summer clothing, mattresses, box springs, pillows, veneers, plywoods, art glass, paints, enamels, varnishes, lacquers, sealers, stains, fillers, undercoats and reducers, bobbin heads, shuttle blocks, building material, mirrors, glass furniture and novelties, toys, hosiery transfers-embossers' labels and seals, silk and rayon weaving, hosiery and under-

wear yarns, dyes, chemicals and textile oil specialties, paper boxes, corrugated shipping containers and a variety of other products.

The manufacturer will find in High Point many advantages so necessary for successful and profitable operation (this is proved by the successful operation of plants now located here). Among these are climate (good living and working conditions); availability of intelligent native labor, 79.8% native white, 19.7% Negro, .05% foreign-born; harmonious industrial relations; efficient public utilities; adequate electric power, and modern municipal facilities.

#### **Transportation**

Located on main line of the Southern Railway System between Washington, D. C., and Atlanta, Ga.

On the High Point, Thomasville & Denton Railroad, a locally-owned and successful short-line railroad connecting, through the Winston-Salem Southbound Railroad, with the Norfolk & Western Railway, the Atlantic Coast Line Railroad and the Norfolk Southern Railroad, with through rates and service applying.

Air service through the Greensboro-High Point Airport is furnished by Eastern Air Lines main line, Capital Air Lines and Piedmont Airlines.

Sixteen motor-freight lines operate out of High Point.

### Charter and Form of Government

The original charter of the City of High Point was granted by the State Legislature in 1859. The present council-manager form of government was inaugurated by charter amendments in 1915 and 1931.

The present charter provides for a city council consisting of a mayor and eight councilmen.

High Point is operated under a modern city-manager charter which places responsibility for efficient operation of all departments upon the city manager and delegates to him authority commensurate with such responsibility.

The charter is unique in that the debt-creating power of the City Council is very greatly restricted. No new indebtedness may be created in any fiscal year in excess of 50% of the amount retired during the previous year, except by vote of the citizens. Under this plan, the indebtedness of the City will undoubtedly decrease each year, and at the same time, such limitation will not prevent the logical development of municipal facilities.

### Electric Distribution System

The City operates its residential and commercial electric system with considerable net profit. The City's charges for electric current sold to its residential and commercial consumers are no greater than those charged for similar classes of service rendered by private utility companies operating in this area.

### Education

#### HIGH POINT COLLEGE

Is young: Founded in 1924, it is building its own spirit and traditions today by the contribution of each student on its campus. Young people enrolling here are not bound by the past, but are building for the future.

Is progressive: Student government functioning through dormitory and day student council gives opportunity for student expression, guidance, responsibility and authority.

Has a curriculum designed to meet the needs of youth in our great democracy, comprehensive and elastic and at the same time sound and thoroughly witnessing the spirit of progress in education.

Is growing: The regular session of the last pre-war year enrolled 502 and carried 300 in summer school and extension. 18 states were represented in the student body. This is a most remarkable record for 18 years' operation (up to that time).

Offers rates within the reach of the most ambitious youth of limited means. The cost for boarding students is \$430 for the year. Especially attractive is the opportunity for local youth who can have the year's work for \$180.

Offers a beautiful campus; attractive, modern, fire-proof buildings; a competent faculty; adequate facilities; and an administration sympathetic with the testings that meet youth in college.

Is located in the heart of the Piedmont—at High Point, N. C.

Convenient to High Point are all the colleges and universities of the state. Time by automobile between High Point and such institutions ranges from 20 minutes to two hours.

### Recreation, Area and Climate

City Lake Park—17 acres. Swimming pool 270 feet long, 165 feet wide, ranging in depth from 2½ to 11 feet; ample for Olympic swimming trials; water tested hourly as to purification; large wading pool. Two tennis courts, soft-ball field, outdoor amphitheatre, children's playgrounds equipped, family picnic facilities adjoins 700-acre lake, excellent fishing.

Negro Park—27 acres. Swimming pool, 6 tennis courts, soft-ball field, athletic and baseball field, wading pool and picnic grounds.

Blair Park—73 acres. Golf courses, 4 tennis courts, clubhouse.

West Blair Park—13 acres, 6 tennis courts, soft-ball field, picnic grounds, children's playgrounds.

Civitan Baseball Park

Numerous small-developed park areas throughout the city, and school athletic fields.

### Population Growth

Census: 1900, 4,163; 1910, 9,525; 1920, 14,302; 1930, 36,745; 1940, 38,495. Estimate in 1948, 47,000.

### 1939 Federal Census of Manufacturing, Retail and Wholesale Trade and Service Establishments

Although renowned as "The Industrial City," High Point could be readily termed "The Balanced City." For here, in addition to 281 factories and mills, are the banks, shops and stores which serve a local retail area of 81,000 population; here are broad, tree-shaded streets; here are the charm of flower gardens and the comfort of luxurious and modest homes. Here are recreation centers, sports and entertainment; and neighboring the city's outskirts are farms prospering with the varied products which modern agriculture creates. Admirably "balanced"—thriving—comfortable—substantial.

### Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

*Do your employers furnish you with the latest edition of the City Directory?*  
You need it at your elbow at all times, to protect your company from forget and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

**Out of Sight - Out of Mind - Out of Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forged and bad-check artists. A few questions, checked against City Directory Information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forgers and bad-  
check artists. A few questions, checked against City Directory information, will tip them  
at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars  
and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

*Do your employers furnish you with the latest edition of the City Directory?*  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times to protect your company from forged and hand-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forget and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times to protect your company from forgers and bad-  
check artists. A few questions, checked against City Directory Information, will trip them  
at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars  
and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

**CLERKS!**

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Invaluable use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

**Out of Sight - Out of Mind - Out of Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

*Do your employers furnish you with the latest edition of the City Directory?*  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forgers and bad-  
check artists. A few questions, checked against City Directory information, will trip them  
at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars  
and helped make some cities "too sharp" for bad-check "operators."

## Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forgers and bad-  
check artists. A few questions, checked against City Directory information, will trip them  
at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars  
and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight  
*Insist on Being Well Represented in its Pages*

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## **Out of Sight - Out of Mind - Out of Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

*Do your employers furnish you with the latest edition of the City Directory?*  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

### How the Modern Way Serves You—

The appeal of spotless table linen is universal. The satisfaction engendered thereby is a distinct pleasure, particularly when company arrives. The best home laundry work falls short of perfection no matter how modern the equipment or diligent the laundress. Our laundry will do a complete job or deliver wet if you prefer to do the ironing. Trust us with your finer, daintier things—you'll not regret it.

"The Modern Way is to let our Laundry make a clean job of the dirty work and save your time for better things."

### THE BEST THINGS COME IN SMALL PACKAGES!

Through our connections the HPT&D Railroad gives this industrial part of North Carolina competitive trunk line advantages. Concentrated into a small area as an efficient "Short Line" and transporting freight only, HPT&D serves, helpfully and courteously.

HPT&D offers regular schedules to all parts of the United States through the Winston-Salem Southbound, Norfolk and Western, Atlantic Coast Line, and Norfolk Southern railroads and their many connections.

Many industries are located along our tracks. Much new development is underway. For detailed information as to industrial sites, track locations, rates, routings, schedules, etc., write or call:

## **Names Appearing in Black Letters**

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

## **The CITY DIRECTORY has a definite place in the Business Man's Post-War Plans**

**T**he average market is nothing like it was at the outbreak of the war. The extent of change has been tremendous. Use the new City Directory to reanalyze the city—to see what it has gained and lost—to check the movements and trends—to secure a record of the vast army of removals—to organize for merchandising new products and services.

## CITY DIRECTORY USAGE SOARS TO

*New High!*

Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future —these and other things make City Directory listing a “must” for all business people. Remember the huge upswing in City Directory usage.

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

**Out of Sight - Out of Mind - Out of Business**

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

**Do you employers furnish you with the latest edition of the City Directory?**  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

## Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

## HILL'S HIGH POINT

Directory of Householders, Occupants of  
Office Buildings and Other  
Business Places,  
INCLUDING  
A Complete Street and Avenue Guide  
1949

Copyright, 1949, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance).

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible).

## Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

**CASHIERS!**

**TELLERS!**

**CLERKS!**

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check operators.

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Do your employers furnish you with the latest edition of the City Directory? You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory Information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however notorious, will slip into the limbo of the forgotten if not persistently advertised. The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on Being Well Represented in its Pages*

Do your employers furnish you with the latest edition of the City Directory?  
You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

# Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

# A STATEMENT OF ADVERTISING PRINCIPLES

1. **GOOD ADVERTISING**—aims to inform the consumer and help him to buy more intelligently.
2. **GOOD ADVERTISING**—tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **GOOD ADVERTISING**—conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **GOOD ADVERTISING**—recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
